

## In Chrome

1. On your computer, open Chrome.
2. At the top right, click More .
3. Click More tools > Clear browsing data.
4. At the top, choose a time range. To delete everything, select All time.
5. Next to "Cookies and other site data" and "Cached images and files," check the boxes.
6. Click Clear data.

## Delete cache and cookies in the new Microsoft Edge

1. Open Microsoft Edge, select Menu (3 dots icon on top right corner of the browser) > Settings > Privacy & services.
2. Under Clear browsing data, select Choose what to clear.
3. Select "Cached images and files" and "Cookies and other site data" check box and then select Clear.

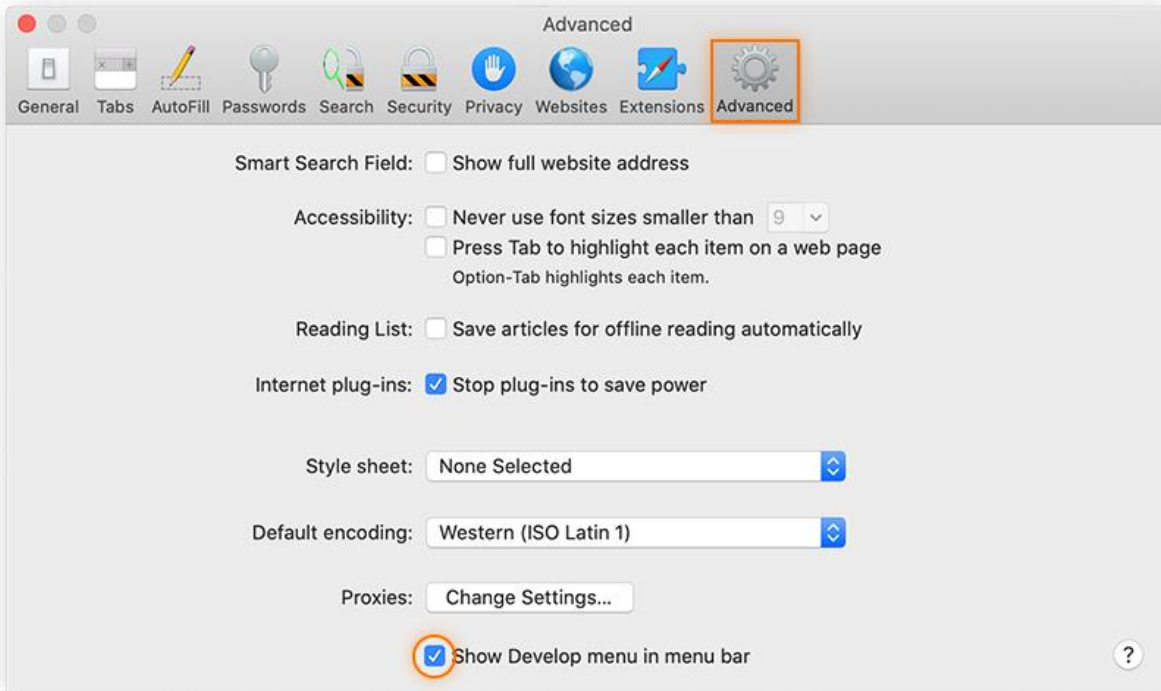

## How to empty the cache in Safari

Let's start by emptying the cache in Safari.

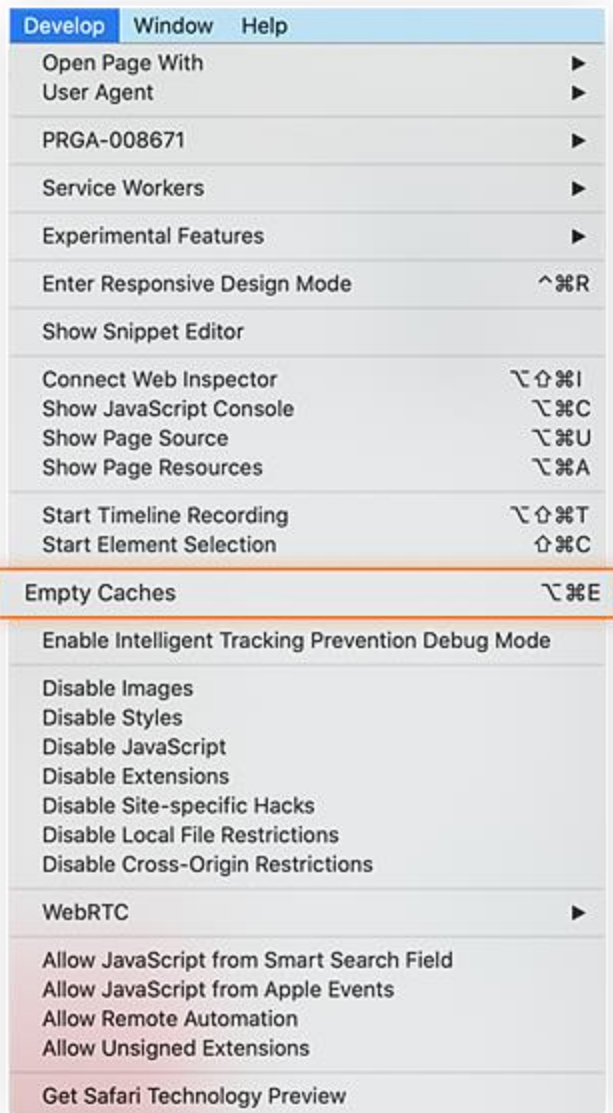

1. Open Safari.
2. Under the Safari drop-down menu, click **Preferences**.

3. Select the **Advanced** icon at the top, and check the box at the bottom for “Show Develop menu in menu bar.”

4. Select the **Develop** menu and then click **Empty caches**.

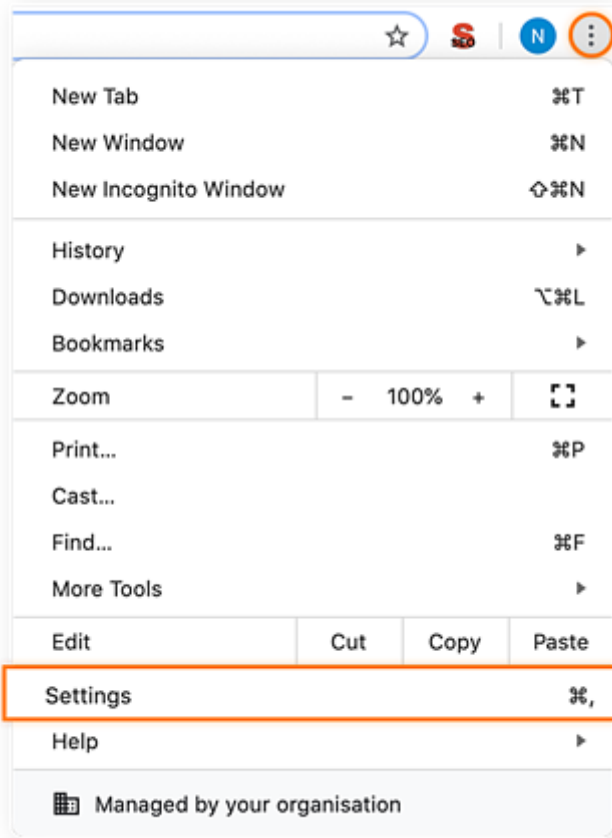

And that's it! An even quicker way is to use keyboard shortcuts, so you don't even have to go hunting for the Safari cache location. Just hit **Command + Option + E** and your cache will clear automatically.

### How to empty the cache in Google Chrome

Are you a Google Chrome user? Here's how to clear the cache on Mac for Chrome:

1. Open Chrome, click on the three dots in the upper-right corner, and select **Settings**.

2. Select **Privacy and security** on the left side, and then select **Clear browsing data**.
